SUMMARY

I'm a software engineer building production web products with React, Next.js and TypeScript. For more than four years I've built both the interface and the data behind it, in company products and in my own projects. Speed, accessibility and plain code are part of design to me.

EXPERIENCE

Software Engineer · İntellium Bilişim Teknolojileri — Mar 2023 – Present

- Built the frontend of a career platform, a corporate collaboration tool and a company portal management system from scratch with React, Next.js and TypeScript.
- Set up shared components and development standards so new features ship with fewer bugs.
- Worked with product and design teams from architecture through to production.

Intern · İntellium Bilişim Teknolojileri — Sep 2022 – Jan 2023

- Contributed to live product features.

Frontend Bootcamp · 3-month intensive program — Mar 2022 – May 2022

- Reinforced HTML, CSS, JavaScript and modern frontend practice through hands-on projects.

Intern · Mersin University Technopark — 2021

- Learned web development fundamentals hands-on with HTML, CSS, JavaScript and React in a technopark environment.

SELECTED PROJECTS

- **Cult of Drive:** garages, marketplace, profiles and an admin panel for an automotive community. Next.js, TypeScript, Supabase. Built solo.
- **Car Parts Shop:** fitment-first store prototype with OEM search, vehicle picker, VIN decoder and an admin panel with a storefront editor.
- **Dietitian Platform:** freelance web app for client tracking and appointment management.
- **Enterprise Fleet System:** fleet app that brings vehicles, drivers, maintenance and reporting into one interface. React.
- **Addash:** open-source Next.js admin dashboard starter (13 UI patterns, 5 themes, multilingual).
- **Roadside Assistance Template:** multilingual, SEO-friendly open-source site template for towing and roadside businesses.
- **ahmetkursat.com:** personal site. Lighthouse 99 / 100 / 100 / 100, 162 unit and 76 end-to-end tests, EN/TR.

EDUCATION

B.Sc. Software Engineering · Fırat University — Sep 2018 – Mar 2023

Occupational Health and Safety (Associate) · Atatürk University — 2018 – 2020

SKILLS

Languages and frameworks: JavaScript, TypeScript, React, Next.js, Vite, HTML, CSS
UI and design: Tailwind CSS, Bootstrap, SCSS, shadcn/ui, Radix UI, Framer Motion, Figma, UI/UX design, design systems
State and testing: Zustand, Vitest, Playwright
Data and backend: Node.js, Next.js API routes, REST, C#, ASP.NET, JWT auth, PostgreSQL, SQL, Supabase
Tools and deployment: Git, GitHub, GitHub Actions, Vercel, Coolify, Docker
Other: i18n, SEO, performance, accessibility, responsive design, Agile/Scrum, AI-assisted development
